IMPORTANT NOTICE TO IMMIGRANT VISA APPLICANTS CONCERNING VACCINATION REQUIREMENTS

United States immigration Law requires immigrant visa applicants to obtain certain vaccinations prior to the issuance of a visa. Panel Physicians who conduct medical examinations of visa applicants are required to verify that immigrant visa applicants have met the vaccination requirements. To assist the panel physician and to avoid delays in the processing of your visa, **all immigrant visa applicants** should have their vaccination records available for the panel physician's review at the time of the medical examination. Visa applicants should consult with their regular health care provider to obtain a copy of their immunization record, if one is available. If you do not have a vaccination record, the panel physician will work with you to determine which vaccinations you may need to meet the requirement. **Only a physician can determine which of the listed vaccinations are medically appropriate for you, given your age, medical history and current medical condition.** For more detailed information, please visit the centers for disease control and prevention, Panel Physician Technical instructions for vaccination.
