

## MEDICAL EXAMINATIONS

**Each visa applicant, including children, regardless of age, must have a medical examination. Medical examinations may only be done by one of the specially appointed panel physicians listed on the reverse of this form. You cannot have the examination done by your family physician or any other doctor not listed on this sheet. Please telephone one of the designated physician's offices to arrange your medical exam. Please explain to the doctor that you are a K3/K4 visa applicant. The panel physician will advise you regarding the cost of the exam and tests.**

**NOTE:** You must bring your passport or other photo-identification to the doctor's office, radiologist and lab where your blood test is taken. **After your medical examination is completed you will be given a sealed envelope containing the results (DS-2053) which you must hand-carry to the Consulate General to be presented with your other required documents.**

The examination will include a medical history, physical examination, chest X-ray and blood tests for syphilis and HIV (Human Immunodeficiency Virus). Children under 15 years of age do not routinely require a chest X-ray or blood tests.

**AIDS NOTE:** As part of your examination, a blood test for the antibody Immunodeficiency Virus (HIV) is required. The results of a positive test must be reported to the consular officer and the appropriate Canadian public health authorities. A positive test result will mean that you will not be eligible to receive a visa.

**IF THE APPLICANT HAS HAD ANY TREATMENT OR HOSPITALIZATION FOR ANY ILLNESS, IT IS MANDATORY THAT WRITTEN CERTIFICATION OF SUCH ILLNESS WITH DIAGNOSIS, DURATION, TREATMENT AND PROGNOSIS BE PRESENTED. PLEASE BRING FROM YOUR DOCTOR TWO (2) COPIES OF THIS REPORT.**

United States Public Health Service regulations require pregnant women to have a chest X-ray. It is possible to perform the X-ray during pregnancy with proper shielding of the abdomen. However, if you are pregnant and do not wish to have the X-ray, a temporary exemption may be granted. To be granted the exemption, you must bring with you to your appointment, written certification of your pregnancy signed by your personal physician or obstetrician.

Applicants being treated by chronic medical problems, or those taking medications on a regular basis, should be familiar with the medical conditions that they are suffering from, and the names of the medications they are taking. If you are not sure of the diagnose, please have your doctor prepare a certificate outlining your problems, the current treatment, and prognosis. Please bring a list of any medications that you may be taking.

## BOOKING YOUR MEDICAL EXAMINATION

Only the following physicians have been designated to perform a medical examination

### BRITISH COLUMBIA

**Dr. Ian Morgan**, Woking Medical Services  
Suite 250, 1144 Burrard St.  
Vancouver, BC, V6Z 2A5
